SHAHEED BHAGAT SINGH EVENING COLLEGE

Annual Report 2020-2021

Founded in **July 2020**, The Sustainable Development Centre of Shaheed Bhagat Singh Evening College, University of Delhi aims at taking a step forward towards promoting and helps the world come together and achieve Sustainable Development Goals as identified by the United Nations by 2030. We believe that to achieve a goal as big as SUSTAINABLE DEVELOPMENT we cannot just expect that to happen overnight instead believe that the entire human resource in active action is required to encourage the baby steps here. The very first SUSTAINABLE DEVELOPMENT CENTRE (SBSEC) is just another baby step in the direction of achieving SDGs; we are very far yet very close as here in SDC we believe that it's better to do something than nothing!

Thinking about the economic viability, environmental protection and social equity the need of the hour and we sincerely believe that this little effort through the channel of SUSTAINABLE DEVELOPMENT CENTRE will make little but visible change happen.

✓ MISSION/VISION

Sustainable development Centre envisions sensitizing community at large about the need for achieving sustainable development goals through effective youth participation. This society marks a theme every year and dedicates itself solely for the function of it. Starting from the very theme "Health and Well- Being" which is also the SDG no.3, aspires to ensure health and well-being for all, at every stage of life, including a bold commitment to end the epidemics of AIDS, tuberculosis, malaria, corona and other communicable diseases by 2030, It also aims to achieve universal health coverage, and provide access to safe and effective medicines and vaccines for all, we here at SDC map out the activities which directly relate to the theme and make general awareness happen in and amongst student members and their families and this is how we happen to play our part as responsible citizens.
